

Coconut Charcoal Power

Our premium coconut charcoal briquettes are made from sustainably sourced coconut shells.

Enjoy longer burn times, intense heat, and minimal ash with our eco-friendly alternative to traditional charcoal.

Key Feature Benefits

Sustainable Source

100% natural coconut shell charcoal, ensuring that not a single tree is cut in the process. Bound together by an all-natural, food-grade binder

Long Burn Time

Experience longer burn times, intense heat, and minimal ash with our premium natural briquettes.

Ceylon Coconut Power

In the heart of Sri Lanka, where nature thrives in its purest form, Ceylon Tradewind Exports is redefining the future of grilling. Our story begins with a simple idea: to create a product that honors the environment while delivering unmatched quality.

Availability

in various shapes like pillow, cylinder, and hexagon

Grill smarter. Grill greener

Businesses and homes are switching to our sustainable briquettes for a cleaner and more eco-friendly grilling experience.

Choose Ceylon Tradewind Exports and ignite your grill with the power of nature. Durable. Eco-friendly. Reliable.
